CATAMARANS

CATLANTE 560

DESIGNED TO MEET YOUR NEEDS

An elegant ship with bright, modular cabins.

With the 560, Catlante meets its customers' desire for a top-of-the-range catamaran that can be privatized with family or friends. Its 4 comfortable, air-conditioned passenger cabins can be adapted to suit all requirements configurations for groups of 8 to 10 people.

The two crew cabins, each with a private bathroom, can accommodate the Captain and crew, an optional host(s) for passengers wishing to add this service.

The strong points that made the Catlante 600 and 720 catamarans so successful have been taken up again: the forward nets have been replaced by a vast observation and relaxation platform, the fly-bridge offers a comfortable sunbathing area, and the large aft skirts facilitate access to the bathing area and make boarding safe, whether in port or by tender.

Thanks to its aluminum construction (a durable, recyclable material), this vessel is extremely robust.
