Depending on your mood, you can explore the island, including one of its three famous rum distilleries - including the Poisson distillery, which produces Père Labat rum, the inventor of the distillation method still used today - or indulge in the pleasures of swimming, snorkeling and lounging.

Dominica Island

DAY 4
Portsmouth

This day will be devoted to discovering Dominica. Nicknamed the « Nature Island », it is one of the most unspoilt islands in the Caribbean archipelago. Its rugged coastline boasts a rare luxuriance of tropical lush vegetation that climbs to the top of high, jagged peaks with superb waterfalls and a volcano with a constantly boiling lake.
This virtually untouched setting is home to the last descendants of the Caribbean Indians and the fishing communities who still set out to sea on their traditional gum trees.
Dominica is the only place in the world where sperm whales live year-round. The best time to observe them is from November to March, when the females give birth to their young.
There's no shortage of opportunities for discovery and activity : 365 rivers, waterfalls and natural spas, a national park, some of the most unspoilt seabeds in the West Indies, horseback riding... You can also opt for a guided excursion (optional at extra cost).
Dinner and overnight at anchor.

Dominica

DAY 5
Portsmouth - Mero Beach

This morning, we set sail for Mero Beach, one of the most popular beaches among Dominicans. Here, the sand is black, a reminder of the island's volcanic origins, and palm trees line a long stretch of beach where local families love to gather on weekends. The atmosphere is relaxed and authentically Caribbean, far from the tourist resorts, with the Caribbean Sea as your playground.
In the afternoon, it's time for a change of scenery!
An optional excursion takes you into the heart of Dominica, surrounded by lush tropical vegetation. First stop: Wotten Waven, a village known for its natural hot springs, where the island's volcanic activity can still be felt beneath your feet. Next, head to Titou Gorge, a narrow canyon carved into the rock, where you can swim between towering walls covered in greenery. Finally, discover Trafalgar Falls, two impressive waterfalls cascading down the mountainside amid the rainforest.
A wonderful opportunity to experience another side of Dominica: wild, volcanic, and bursting with life.
Return to Mero Beach for dinner and overnight on board.

DAY 6
Mero Beach - Les Saintes Archipelago

Early morning departure for a sail to the Les Saintes archipelago, arriving around midday.
Famous throughout the West Indies for their bay, often compared to that of Rio de Janeiro, Les Saintes form a truly unique archipelago off the south coast of Guadeloupe. The beauty of the setting and the uniqueness of its people, with their distant Breton origins, create an incomparable atmosphere so seductive that many sailors have settled here.
In the afternoon, you can take a tour by cab or rent a scooter (optional and at extra cost), or go to Pompierre beach, a picture-postcard setting : white sand, clear, calm lake water and coconut palms.
At the end of the day, take a stroll through the narrow streets of Terre de Haut : do a bit of shopping, have a coffee on the terrace while enjoying a Tourment d'amour, a delicious little local pastry, or take an interest in the artisanal manufacture of Saintoises, small typical fishermen's boats.
Dinner and overnight at anchor in Terre de Haut.
